## LIMITS OF CONFIDENTIALITY

Contents of all therapy sessions are considered to be confidential. Both verbal information and written records about a client cannot be shared with another party without the written consent of the client or the client's legal guardian. Noted exceptions are as follows:

---

### DUTY TO WARN AND PROTECT

When a client discloses intentions or a plan to harm another person, the mental health professional is required to warn the intended victim and report this information to legal authorities. In cases in which the client discloses or implies a plan for suicide, the health care professional is required to notify legal authorities and make reasonable attempts to notify the family of the client.

### ABUSE OF CHILDREN AND VULNERABLE ADULTS

If a client states or suggests that he or she is abusing a child (or vulnerable adult) or has recently abused a child (or vulnerable adult), or a child (or vulnerable adult) is in danger of abuse, the mental health professional is required to report this information to the appropriate social service and/or legal authorities.

### PRENATAL EXPOSURE TO CONTROLLED SUBSTANCES

Mental Health care professionals are required to report admitted prenatal exposure to controlled substances that are potentially harmful.

### MINORS / GUARDIANSHIP

Parents or legal guardians of non-emancipated minor clients have the right to access the clients' records.

### INSURANCE PROVIDERS (when applicable)

Insurance companies and other third-party payers are given information that they request regarding services to clients.

Information that may be requested includes, but is not limited to: types of service, dates/times of service, diagnosis, treatment plan, description of impairment, progress of therapy, case notes, and summaries.

*I agree to the above limits of confidentiality and understand their meanings and ramifications*

## PATIENT RIGHTS AND HIPAA AUTHORIZATION

The following specifies your rights about this authorization under the Health Insurance Portability and Accountability Act of 1996, as amended from time to time ("HIPAA").

1. Tell your psychologist if you do not understand this authorization, and the psychologist will explain it to you.
2. You have the right to revoke or cancel this authorization at any time, except: (a) to the extent information has already been shared based on this authorization: or (b) this authorization was obtained as a condition of obtaining insurance coverage. To revoke or cancel this authorization, you must submit your request in writing to the provider at the following address:

David F. Dahl, Ph.D., 2542 South Bascom Avenue, Suite 265, Campbell, CA 95008.

3. You may refuse to sign this authorization. Your refusal to sign will not affect your ability to obtain treatment or payment or your eligibility for benefits. If you refuse to sign this authorization, and you are requesting a psychological evaluation for the purposes of:
  - i. A court order
  - ii. An attorney's recommendation
  - iii. A pre-employment screening evaluation
  - iv. A legal matter in which your mental status is at question, you must be aware that your refusal cancels the purpose for which the evaluation was ordered or recommended and you will still be held responsible for the fees ordinarily charged for this evaluation by the psychologist up to the point of the refusal.

If you refused to sign this authorization, and you are in a research-related treatment program or have authorized your provider to disclose information about you to a third party, your provider has the right not to treat you or accept you as a patient in this practice.

4. Once the information about you leaves this office according to the terms of this authorization, this office has no control over how it will be used by the recipient. You need to be aware that at that point your information may no longer be protected by HIPAA.
5. If this office initiates this authorization, you must receive a copy of the signed authorization.
6. **Special instructions for completing this authorization for the use and disclosure of Psychotherapy Notes.** HIPAA provides special protections to certain medical records known as "Psychotherapy Notes". All Psychotherapy Notes recorded on any medium (i.e., paper, electronic) by a mental health professional (such as a psychologist or psychiatrist) must be kept by the author and filed separate from the rest of the client's medical records to maintain a higher standard of protection. "Psychotherapy Notes" are defined under HIPAA as notes recorded by a health care provider who is a mental health professional documenting or analyzing the contents of conversation during a private counseling session or a group, joint or family counseling session and that are separate from the rest of the individual's medical records. Excluded from the "Psychotherapy Notes" definition are the following: (a) medication prescription and monitoring, (b) counseling session start and stop times, (c) the modalities and frequencies of treatment furnished, (d) the results of clinical tests, and (e) any summary of: diagnosis, functional status, the treatment plan, symptoms, prognosis, and progress to date. In order for a medical provider to release "Psychotherapy Notes" to a third party, the client who is the subject of the Psychotherapy Notes must sign this authorization to specifically allow for the release of Psychotherapy Notes. Such authorization must be separate from an authorization to release other medical records.
7. According to HIPAA, you have the right to review the record within 10 days of your request. You will be charged the full hourly fee for reviewing the record in the office with the psychologist.
8. According to HIPAA, you have the right to a summary of the record within 15 days of your request. You will be charged the equivalent of the hourly fee required by the psychologist to review and summarize the record. This summary will be one page, brief and general. If there are more than one person in the record, each party will receive the same summary.
